

An illustration of Rocket Raccoon and Groot in a workshop. Rocket is in the foreground, looking frustrated with his hands raised. Groot is in the background, looking thoughtful with his hands on his head. The scene is filled with various tools and mechanical parts like screws, bolts, and a wrench.

Groot se přikrčil, zatímco Rocket
rozhazoval své vynálezy všude kolem.

„Moje staré laserové ukazovátko!
A hele, zmenšený termotronový
urychlovač! Myslel jsem, že už ho
nikdy nenajdu,“ brumlal si Rocket
a nořil se hlouběji do bedny.
